Descripción : APADRINADO POR FRANK RENGER ,MICHAELA KNAPKE-OBEL,NORMAN WOLF Y Petra Haeseler
Bolita,
Estaba solo en medio de la calle acercandose a las pocas personas que pasaban por alli.
Enseguida nuestra compañera lo llevó al veterinario y no tenia chip.
Lo subimos a las redes sociales pero nadie lo ha reclamado, no entendemos como pueden dejar a un animal asi de bueno en la calle.
Es un gato muy especial, al principio es un gato timido, pero en cuanto te conoce, es el gato mas dulce de toda la gatera. No deja limpiar a las voluntarias, siempre esta dándonos cabezazos para que le demos besos y caricias. Le gusta mucho que lo cepillen y le digan cosas bonitas. En cuanto lo acaricias, se le cae la baba. Tiene unos ojos preciosos como su carácter.
Se lleva muy bien con sus compañeros.
Bolita ya está listo para su adopción, asi que si estás interesad@ en él, envía un email a gatosdeapapa@gmail.com
---
Bolita,

Beautiful blue-eyed Bolita was found alone on the streets, approaching the few
people who cared to stop. One of our friends found him and immediately took
him to the vet to see if he was wearing a chip (unfortunately not). We have tried

to locate Bolita’s owner by posting his picture on social media but nobody came forward to claim him. It is simply unbelievable that someone would abandon such a gentle soul.

Our Bolita is a very special little creature. At first, he is a little shy but as soon as he knows you a little, this is the sweetest cat in the world! He simply will not leave the volunteers of the shelter alone: he insists on covering them in kisses and caresses! Bolita loves it when he is brushed and when you talk to him.

Sometimes he gets so carried away, he loses his cool a bit and might drool a little. His personality is as beautiful as his stunning blue eyes.

Bolita gets along very well with other cats. He is one of our extra special cats because he is a Feline Leukemia (FL) carrier. He can lead a normal life and FL cannot be transmitted to humans or to other animals; only other cats living with him can get infected. We can of course tell you how to take care of special cats like Bolita.

If you would like to give Bolita his second chance in life, please send us an e-mail at gatosdeapapa@gmail.com
